## The Benefits of a Home Inspection

Buying a house, townhome or condo? New or used, this purchase will most likely be one the biggest decisions you'll ever make. With this type of an investment, it only makes sense to have a professional home inspection done beforehand.

**If you're thinking, "Why do I need to spend the time and money on a home inspection?"**

**Our question to you is "Why take any unnecessary chances with your hard earned money?"**

An inspection will give you a clear, concise picture of the important components

and systems of the home so you can make an informed decision. In doing so you avoid getting into your nice new home only to spend thousands

of dollars on unexpected or unforeseen problems in your home that could have been identified with a simple inspection.

Our thorough, impartial inspection will let you identify any minor or major repairs or maintenance issues. The inspection report also gives you a valuable tool in the bargaining stage of your home purchase to address any issues before you sign on the dotted line.
